NetWorks 2026

4-6 November

A community for impact!

Dear THSNers,

The Human Safety Net is celebrating its **9 years!**

Year after year we grew as a community, all believing in our mission: to transform people's lives.

Networks 2026 is already our 8th annual summit and became an important annual moment of our journey to look back what we achieved and design together the future.

Networks is a moment to live at best our values and experience this unique energy each of you contribute to. It is YOUR Networks!

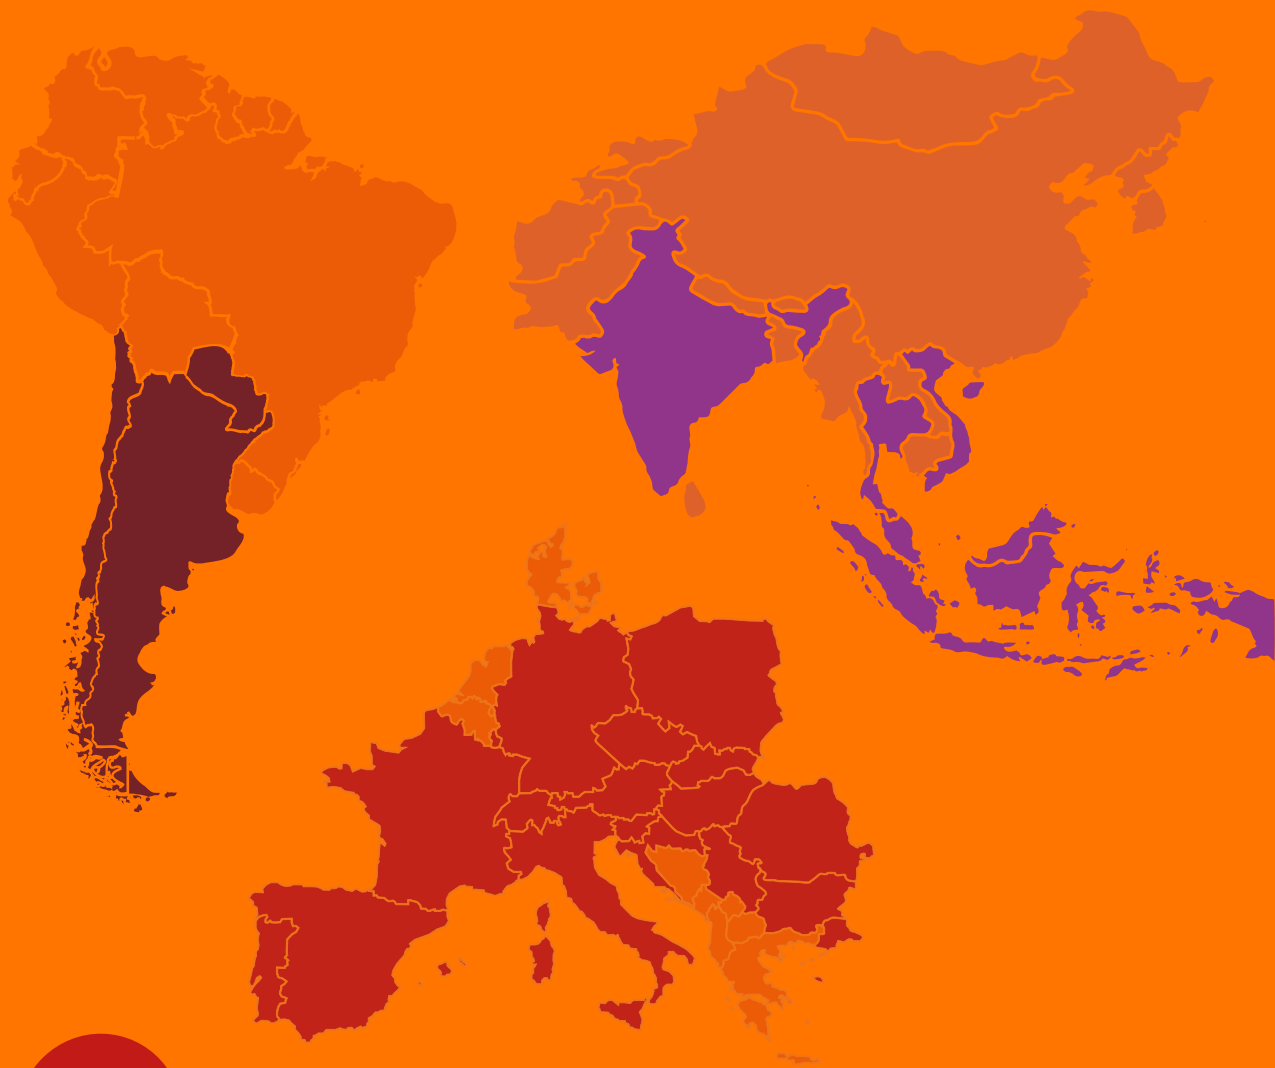

This year, part of our discussions will be dedicated to see how to strengthen our connections in each country and engage more with the public sector to reach a national and sustainable impact where we are active.

This book is organized by country and created to keep growing as a community. Take the time to discover the people, build connection and collaboration during and after Networks.

Enjoy it!
