## EXECUTIVE SUMMARY

The Group closed the financial year with strong growth, completing its three-year 2015 turnaround plan, one year ahead of schedule. These strategic initiatives have enabled Generali to improve its profitability and rebuilt its capital strength.

Despite the challenging macroeconomic scenario and low interest rates, the Group profoundly transformed its financial and business profile in just two years. The implementation of the strategic plan also allowed the company to exceed its **2015 main profitability target** one year ahead of schedule: **operating RoE** reached **13.2%** at the end of the year (vs 13% 2015 target; 11.7% FY13).

The significant growth in operating performance in the Life segment (+15.2%) as well as in the P&C segment (+13.1%) pushed the **overall operating result** up to **€4,508 million** (+10.8%; €4,071 million FY13).

The net result at €1,670 mln (€1,915 mln FY13) includes approx. €400 million of extraordinary one-offs, taking into account the full charge of the BSI disposal and the impairment of Ingosstrakh. The adjusted net result without considering these extraordinary items is €2.1 billion.

On the production side, the launch of new products and business initiatives grew **total premiums** to €70,430 mln (+7.7%; €65.9 million FY13). The increasing results from the **Life segment**, was particularly successful in Italy, France and in EMEA. Growth has resumed in all lines of business and unit linked contracts have experienced a strong developed (+43%) in line with the strategy to focus on products with low capital absorption. New business in terms of APE has also showed a significant increase up to €5,163 million (+14.2%), accompanied by high profitability. New business value (NBV) experienced an increase of 33.7%.

In the **P&C** segment, premiums remained broadly stable (€20.617 million; +0.2%) despite the difficult economic situation that persists in several markets. The Group's P&C business continues to be supported by high technical profitability with a **combined ratio** further improved to 93.8% (-1.9 p.p.) thanks to lower loss ratio and cost containment. The reserve ratio has increased to 154% (150% FY13).

These results are accompanied by a **strengthened capital position** which the Group continues to hold in a sharp focus. Shareholders' equity grew 17% to €23.204 bln, while the **Solvency I** ratio has exceeded the 2015 target (160%), reaching 164% (on a *pro-forma* basis including the impact of the sale of BSI; 141% FY13).

## DIVIDEND PER SHARE €0.60 (+33%)

The **dividend per share**, to be proposed to the AGM, is €0.60; €0.15 higher (+33%) than last year (€0.45 FY13). The Payout ratio grew up to 55,9% from 36.6% in the the previous year.

The total dividend on outstanding shares amounts to €934.1 million. The dividend will be paid on 20<sup>th</sup> May 2015 and the record date will be 19<sup>th</sup> May 2015. Shares will trade ex-dividend as from 18<sup>th</sup> May 2015.

## LIFE SEGMENT: OPERATING RESULT REACHING 3 BLN (+15.2%), THANKS TO BUSINESS PROFITABILITY AND EXCELLENT PREMIUM INCOME

- Excellent premium development (+11.2%), particularly in Italy (+30.7%); France (+10%) and EMEA countries (+21.1%)
- New business in terms of APE growing (+14.2%), with NBM rising up to 24%

The **operating result** of the life segment grew by 15.2% to €2,978 million (€2,585 million FY13), driven by business profitability and increase in total premiums, as well as by the favourable trend in the net investment result and cost containment. Despite a challenging regulatory framework and the low yields environment, the result is almost back to the levels prior to the beginning of the financial crisis in 2008.

<b>Total</b>	<b>2.978</b>	<b>+15.2%</b>

The Group's **premium income** grew by 11.2% to €49,813 million driven by the positive performance in all business lines, and particularly supported by the strong increase in unit linked contracts (+43%). Savings lines (+4%) and protection policy products (+2.5%) also recorded a positive development. **Italy's** contribution was highly valuable, with growth of more than 30% driven by the increase in single premiums (+60.5%). Premiums in **France** also picked up (+10%), thanks to actions undertaken on the portfolio, with excellent performances from savings products and unit linked policies. Business in **EMEA countries** grew as well (+21.1%) while, following a planned reduction in single policies (-25.9%) linked to the current low interest rates, **Germany** saw a reduction in premiums (-8.8%). Excellent performances were also recorded in LatAm (+26.6%), Asia (+19.1%) and International Operations (+11.4%).

Compared to last year, new business in terms of **APE** grew steadily (+14.2%), which was mainly driven by single premiums (+27.2%). **Life net inflows** – the difference between payments received and payouts made – grew appreciably to €12,747 million, as the result of the positive trend in total premiums.

## P&C SEGMENT: +13.1% GROWTH IN OPERATING RESULT; COMBINED RATIO FURTHER IMPROVED TO 93.8%

- Technical profitability increased across all the Group's core markets. CEE countries confirm improved CoR at 87.7%
- Premiums stable at €20.6 billion (+0.2%). Good performances in Germany and CEE countries

The P&C segment confirmed its high profitability with a growth in operating income (+13.1%) to €1,831 million (€1,619 FY13), above all due to the performance of the technical result.

<b>Total</b>	<b>1,831</b>	<b>+13.1%</b>	<b>93.8%</b>	<b>-1.9 pp</b>

**Combined ratio** (CoR) further improved to 93.8% (-1.9 p.p.) led by the fall in the loss ratio (66.7% -1.8 p.p.) and the stability of the expense ratio (27.1% -0.1 p.p.). The CoR improved in all the Group's main markets. In Italy it fell by 3.2 p.p. to 89.2% (92.4% FY13), mainly due to the positive performance of the non-catastrophic current loss ratio. Technical profitability increased significantly in Germany, with CoR at 92.6% (-3.1 p.p.) thanks to the reduced weight of catastrophic events; performance in France also improved (-0,6 p.p.). The CEE countries have once again confirmed the outstanding performance of the Group with the CoR at 87.7% (-1 p.p.) of CEE countries once again confirmed itself as the the Group's best.

Although the macroeconomic environment in many markets remains challenging, the **premium income** in the segment was stable at €20,617 million (+0.2%). The Motor line marked a slight growth (+0.8%), thanks to the good performances recorded in Germany and LatAm. The Non-Motor line grew in the Commercial/Industrial line (+1.7%), which compensated for a drop in Accident and Health products (-1.2%).

As far as the Group's main markets are concerned, total premiums slightly decreased (-2.9%) in Italy, due to the country's economic situation. This had a particularly strong effect on the Motor line (-4.9%). Results in Germany, on the contrary, were remarkable (+3.3%), thanks to the performance of both the Motor and Non-motor lines. Premiums in France decreased (-6.5%), while written premiums grew by 1.3% in CEE countries, thanks both to the Motor (+2.5%) and Non-motor (+0.8%) lines.

## HOLDINGS AND OTHER ACTIVITIES SEGMENT

The Holdings and other activities segment includes the activities carried out by Group companies in the financial advisory and asset management sectors, the costs incurred in the activity of managing, coordinating and financing the business, as well as other activities

which the Group considers subsidiary to its core insurance business.

The **financial segment** made a positive contribution, recording a growth in operating income of 8.9% to reach €374 million (€343 million FY13) thanks to the support of Banca Generali. The growth in the financial segment can be mainly ascribed to the net operating income from financial activities, which benefited from greater net commissions. The overall operating result of the “Holdings and other activities” segment stands at €-5 million. This result was mainly determined by the increase in operating costs of the holding related to improvements in several Head Office projects, IT improvements, transition to the new Solvency regime and the reclassification of a real estate development from non-operating to operating result.

## OUTLOOK

These are unprecedented times for the insurance industry, with interest rates at record lows, increasingly stricter rules for distribution, the implementation of the Solvency 2 directive and a softening P&C market. Over the past two years the group has re-established a solid financial footing and initiated a number of technical and operational excellence programmes to enable it to better serve and retain its customers. This work will continue over the coming months.

In light of the actions implemented, and notwithstanding the uncertain macroeconomic scenario, Generali expects for 2015 to strengthen the levels of operating performance achieved in 2014. The Group's will present its new strategy for its next phase of development at the next Investor Day, on May 27<sup>th</sup> in London.
